

## Basketball League COVID-19 Guidelines

### Guiding Principles:

- **Stable groups:** all players and coaches will be assigned to one team for the entirety of the season. *Parents are encouraged to choose one stable group per child per season (players should not be on multiple teams in different leagues at the same time).*
- **Wellness checks**, including a temperature scan, will be required for anyone entering the building using the LiveSafe App that can be downloaded onto a parent/guardian phone.
- **Physical distancing** of six feet between participants is encouraged while engaged in active play. When not engaged in active play, six feet of physical distance should be maintained between participants. For example, players should be socially distanced while on the bench, or in line for a drill.
- **Face coverings:** Participants, coaches, staff, volunteers, and spectators are required to wear a face covering any time they are in the Boys & Girls Club facility. (Exceptions exist for children younger than age two and those who can't wear one for health or developmental reasons.)
- **The use of shared equipment is discouraged**

### Parent/Guardian Drop-offs:

- Parent/Guardian will drop off their youth participant at the Pre-Teen entrance
- Parent/Guardian and child must be wearing a CDC approved face covering
- Parent/Guardian and child will undergo a wellness check and temperature scan prior to being allowed in the building
- Once cleared to enter, all parties must immediately wash/sanitize their hands and head directly into the gym

### Spectators:

- There will be one adult spectator, plus one child under the age of 12, allowed to enter the building per player for each game
- There will be markings placed at least 6 feet away from each other, and at least 14 feet away from the playing area, on the bleachers
- Spectators must stay in the same seat for the entire game

### Cleaning & Sanitizing:

- Staff will be responsible for cleaning and sanitizing frequently touched surfaces in the gym and bathrooms including benches, bleachers, equipment, the score table, and door handles in between each game/practice
- Frequent handwashing or sanitizing before, during, and after games/practices will be required
- All side doors will be propped open, and the ceiling fans will be turned on to promote as much air circulation as possible
- Extra time will be scheduled between games to allow time to clean prior to the next game
