

CAMP RAMSBOTTOM

Camp Ramsbottom Updated COVID-19 Guiding Principles

- **Wellness Checks:** Every day prior to entering Camp, every member and staff will undergo a wellness check to ensure that no symptoms of COVID-19 are present, and the individual has not been recently exposed.
 - **Parent/Guardians are required to** complete their child's wellness check using the **LiveSafe App**, which can be downloaded onto the parent/guardian's mobile device. Proof of completion is required prior to entering Camp Ramsbottom
- **Social Distancing:** In order to maximize social distancing, we will limit the number of children and staff at Camp each session. Throughout the day, all activities will, to the best of their ability, maintain a 3-foot distance between participants except when engaged in active play. Extra measures such as limiting bathroom traffic and assigning specific pod areas will be enforced, as well as keeping ample space between personal belonging.
**subject to change based on Massachusetts Department of Public Health regulations at the time of Camp*
- **Stable Pod:** All Campers will be grouped in stable pods and must stay with the same pod for the duration of the Camp session.
- **Masks:** Masks will be required at all times indoors. Masks will not be required for campers and staff when outdoors and able to maintain a distance of 3 ft. **subject to change based on Massachusetts Department of Public Health regulations at the time of Camp*
- **Handwashing & Sanitizing:** Campers and staff will be required to wash and sanitize their hands frequently throughout the day.
 - We will be using hand sanitizer with at least 60% alcohol when handwashing is not available
 - If you do not give your child permission to use hand sanitizer with at least 60% alcohol, please request a form upon drop off
- **Contact Tracing:** We will maintain logs of every camper and staff that members have contact with each day in order to provide contact tracing in the event of a positive case. In order to minimize risk, every effort will be made to limit participants contact with children and staff outside of their pod

- **COVID-19 Testing:** While not required, we encourage all campers and staff to get tested for COVID-19 regularly while attending Camp
